# LabelSecure S – sample checks made easy

Checking and documenting of labels and markings

**BIZERBA**

# Your possibilities with LabelSecure S

**Compliant**

- Fulfilling specifications through sample test and quality control

- Automated Quality Assurance reporting

**Performance**

- One system for several packaging lines

- Suitable for numerous flat and rigid food packagings

- Perfectly suitable for meat, convenience, cheese, baked goods, fruit …

**Reliable**

- Verification of presence of the labels

- Error detection via OCR or pattern matching

- Check of assignment of labels and special offer stickers

**Multitalented**

- Verification of code, presence and position

- Reading date, batch, 1D or 2D etc.

- Checking whether the information is properly assigned

# Minimal effort, high efficiency

LabelSecure S is an ideal solution for an efficient integration of sample tests in your production processes. This Quality Assurance tool is the manual solution for
- Small areas and limited budgets
- Mislabeling prevention
- Providing evidence of inspection traceability

## Automated gene-ration of quality reports

- Saving data incl. photos for documentations and audits
- Allows paperless work

## The right label on the package

- Avoidance of missing labeling and coding
- Avoidance of manual errors

## Easier and more efficient working

- Graphical user interface for intuitive operation
- Saving time initially spent at manual checks and records

# Manual sample check or automated inline solution?

## LabelSecure S

- One inspection system for several packaging lines

- Reliable sample validation of labelling

- Space-saving, budget-oriented solution

- Mobile inspection on different lines

- Automated generation and saving of quality reports

## LabelSecure L

- Integrated, fully automated system for one packaging line

- Automatic rejection of non-conforming packages

- Real-time process analysis and control

- Total traceability of packaging processes

# Safety and efficiency

## Easy integration and connectivity

- Automatic saving of results in the device software

- Check of several packaging lines with different references: simply entering the reference number of the line and starting the label check

- Compatible with ERP

- Connection to BRAIN2 possible

- Connection to other sampling inspection systems possible

- System uses the same software as the inline systems of the Secure series
