

Data Sheet

WM-T

BIZERBA

The WM-T in combination with our industrial PCs iS65 Pro and iS75 as well as the verifiable Bizerba software ScaleView allow among other things to use different weighing applications under harsh industrial ambient conditions.

More information
High performance
with a wide range of
solutions and options.

Product description

The housing of the WM-T consists of resistant stainless steel and can be mounted to the base for all table top and stainless steel column installation variants or as a separate box. The verifiable Bizerba software ScaleView makes the industrial PCs iS65 Pro and iS75 to full-fledged weighing terminals. User-specific configurations can be quickly and easily performed via the installed Configuration Tool.

Highlights

- Stainless steel housing, IP65/IP69 protection
- Connection of an analog load receptor
- Power supply among other things directly from the industrial PC iS75 to the WM-T via USB
- Bizerba software ScaleView:
 - Verifiable display
 - Function keys such as tare, delete tare, manual tare, zero setting

iS75 with ScaleView and iL Professional 150SPM/SP

ScaleView

WM-T

Options

- Mounting to the base of the table-top/wall mounting and column
- Customer-mounted
- Metrologically approved data storage
- Connection to _connect.BRAIN
- Compound scale (requires a second WM-T)
