WM-3

BIZERBA

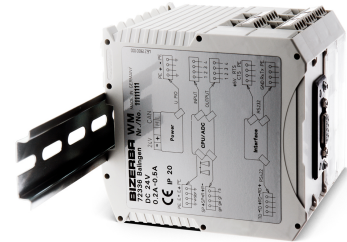

With a robust design the WM-3 is ideally suitable for weight recording, data output and control. The compact solution made of plastic is specifically designed for installation in the control cabinet. With its large variety of interfaces our weighing module can be smoothly integrated in your system. And as a WM-B variant it is even suitable for hazardous areas.

High performance
with a wide range of
solutions and options.

Product description

The weighing module WM-3 impresses due to its easy and safe handling: You can easily program it via a PC tool. Data can be output to PLC, PLS, or ERP systems using the ports. The large number of ports ensures comprehensive system integration. The compact weighing module made of plastic is specifically designed for installation in the control cabinet onto a top hat rail. It can be used, among other things, in logistics or warehouse and process technology for weight recording, data output and control. Even fill levels are safely and reliably checked by the WM-3. The optional event-controlled SMS data transfer to mobile phone and/or landline network offers your transparency and control at flexible locations.

Highlights

- Special solution for control cabinet installation
- Easy system integration with high process security
- Simple programming via PC tool
- Robust design, made of plastic
- QSF filter for stable weight values
- Easy data output to PLC, PLS, or ERP systems via interfaces
- Numerous interface options: RS422 via terminals (bus-capable)

WM-3

Options

- Event-controlled SMS data transfer to cell phone and/or landline
- Version WM-B for safe use in hazardous area 1/21
- Large numeric display
- Telemodem connection via RS232 or RS C via terminals
- Interfaces additional module: Ethernet 10/100 Mbit (RJ 45 socket), TCP/IP, Profibus DP V1, 12 Mbit (9-pin Sub-D connector), cyclic service, analog output 0/4-20 mA or 0-10 V, 8 static inputs and outputs, galvanically isolated

My Bizerba

We offer you solutions from a single source which can be customized and allow you to respond to any change in a flexible manner. Benefit from costs which can be planned and efficient processes. We are happy to advise you.
