High performance
with a wide range of
solutions and options.

Product description

Flexibly use this solution for any production, warehouse and distribution logistics. The fully automatic GLM-Levo is suitable to be used for labeling in all industries and in the most varied environments: From a harsh industrial environment up to a demanding food area – the GLM-Levo reliably meets all requirements. The labelers are network compatible and can also be controlled directly via the Internet. The new PC-based hardware provides even more storage capacity and allows an even faster processing of the label data. The operating terminal GT-12C with a color touchscreen is clearly arranged and ergonomical. You increase efficiency and minimize the risk of operating errors.

Highlights

- Flexible fields of application for labeling of cases, boxes and pallets in production, warehousing and distribution logistics
- Three labeling systems, each suited either for in-motion or start/stop operation
- Air-jet applicator: At the top of packages and cartons with the GLM-Levo 1T. On the side of the package with the GLM-Levo 1S.
- Piston applicator: At the top of packages and cartons with the GLM-Levo 1T. On the side of packages and cartons with the GLM-Levo 1S.
- Rotary applicator: Side, top or front end of packages and cartons with the GLM-Levo 1T. On the side of the package with the GLM-Levo 1S.
- Ergonomic input of all configuration and print data via the separate operating terminal GT-12C
- Thermal direct and thermal transfer print
- Easy label roll change

Options

- Thermal transfer device
- Motorized height and lateral adjustment

My Bizerba

We offer you solutions from a single source which can be customized and allow you to respond to any change in a flexible manner. Benefit from costs which can be planned and efficient processes. We are happy to advise you.
