VoucherSystem

Managing vouchers easily and centrally: With the RetailApp VoucherSystem you can create vouchers directly on the scale and manage them centrally and across all stores.

Product description

The RetailApp VoucherSystem allows central voucher management across several stores with voucher assignment directly on the scale. The voucher amount is flexibly preassigned or can be freely selected. Further convenient functions such as voucher recording via barcode or manual input are possible. Also the connection to the RetailApp PaymentManager - VoucherPay or an external payment system can be implemented with ease. Each voucher can be fully redeemed at the cash register or in part. The VoucherSystem provides central reporting about sold and redeemed vouchers. All vouchers can be viewed, edited or deleted via web browser. Each partial redemption becomes visible. Managing vouchers has never been so easy with the RetailApp VoucherSystem.
