- Help for questions concerning application and device functions

Asset management

- Regular survey of devices at customer site, e.g. for inventory purposes
-

Your benefit

With the Full service contract you benefit from greater planning reliability and cost certainty. Due to regular preventative maintenance value and functionality of devices and systems remain intact. This ensures a high level of availability and productivity for your company. The Full service contract also helps minimize the number of unforeseeable repairs, internal assignments as well as training and personnel costs.

If the system still shuts down - with a Full service contract you're on the safe side. Stand-by services during our business hours are included, meaning that repairs can be done quickly. Production downtime can be reduced thanks to quick assistance provided by our remote support service - without technician lead time and travel time. Additionally benefit from time savings.

Another advantage you can expect from the Full service contract is the use of Bizerba spare parts. The use of high-quality and tested original Bizerba spare parts increases the life span and working life of the devices, providing more reliable availability and greater economic viability.

The desire for a simple payment method, predictable costs, cost control and transparency is provided with this type of contract - as internal costs and time are saved if you take advantage of the Full service contract. And what is more, you already know at the time of investment what costs to expect as a result of the purchase and operation of the system (TCO).

Bizerba Service is a competent partner, who knows the ins and outs of your situation and your requirements and can respond to them individually and personally. With the Full service contract from Bizerba you gain a reliable and proactive partner and solution provider as the central body to register your requirements. Get the maximum benefit from Bizerba technicians' professional process and industry know-how. Thanks to the Bizerba principle "Everything from a single source" you will be in good hands with us.

Special features

By using original Bizerba spare parts you meet the warranty claim for devices and systems. The provision of rental equipment, in as far as available, included in the scope of services quickly bridges any downtime. Standstill periods and sales losses are reduced to a minimum.

In terms of country-specific verification regulations, the Full service contract includes advice on observing the standards and statutory regulations as a matter of course - as in Bizerba Service you have a trained, competent partner who knows all about the applicable regulations. This ensures prompt statutory certification.

Our in-house established information management makes sure our service technicians are always informed and up to date on all the hygiene and security regulations.

Thanks to regular checks of your devices we always know where your device are. And large (stores) plants benefit especially here when carrying out their inventory.

Options

- Optionally also wear and tear parts included
- Increase of Service Level Agreement (SLA): Extended availability means that the stand-by service adjusts its availability by up to 24 hours, seven days a week to your individual production times. And the response time that you define to ensure quick and competent maintenance is guaranteed and ensures quickest possible recovery time
- Increase of preventative maintenance intervals
- Runtime between 12 and 60 months
