

## BRAIN2 Data\_Maintenance\_Basic

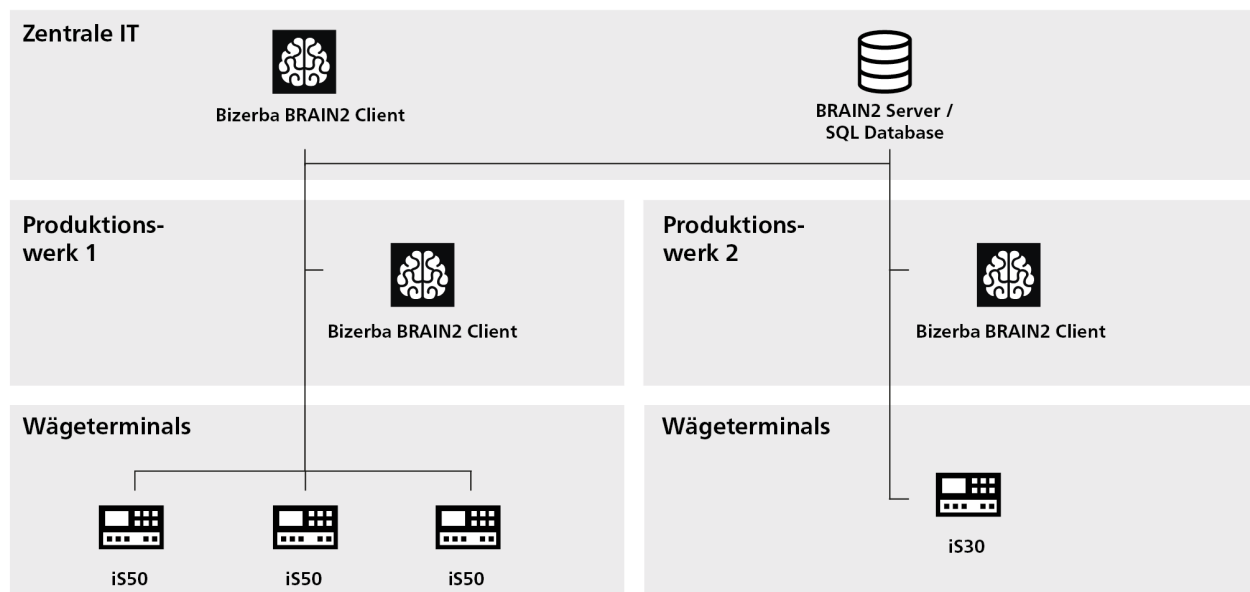

*With the master data maintenance tool BRAIN2 Data\_Basic you can centrally edit master data of the Bizerba weighing terminals. Via the intuitively operable GUI you can send selected master data to any number of devices in a targeted manner.*

**More information**  
High performance  
with a wide range of  
solutions and options.

### Product description

The master data maintenance tool BRAIN2 Data\_Maintenance\_Basic is closely linked to the Bizerba weighing terminals and applications. The user-friendly interface optimally shows the data structure of the Bizerba weighing terminals.

### Properties

- Simple article maintenance on the pc
- Creation and management of supplier data
- Central master data management including user management
- Automatic data synchronization of the Bizerba devices, e.g. at night (only in conjunction with BRAIN2 Standard and Enterprise)
- Synchronization of device times
- Adjustable counting and dosing parameters, price information, tolerance controls, limit values, statistics

### Provable benefit

With the use of BRAIN2 Data\_Maintenance\_Basic your devices have consistent (uniform) data such as articles and texts. Easy data management with user-dependent rights improves your workflows.

### BRAIN2 - optimized processes

- The dynamic design of BRAIN2 and the freely selectable applications allow you to clearly arrange and individually design the user interface. As a result you benefit from a more efficient and easier operation
- With the available Bizerba modules you dimension and adapt BRAIN2 Framework to fit your production. Misinvestments due to partially unused software packages are avoided.
- To save time for repetitive tasks, you can automate tasks with BRAIN2 such as reporting on the printer, backup of the BRAIN2 database and reporting via e-mail.
